10/01/2019

DRAFT "AFI NO NEEDLE POLICY"

A) Needles must not be used except by:

- i)** Medically qualified practitioners for the clinically justified treatment of injury, illness or other medical conditions (for which a valid TUE- Therapeutic Use Exemptions, may be required).
OR
- ii)** Those requiring an auto injection therapy for an established medical condition **ONLY** with a valid TUE, e.g., insulin dependent diabetes.

B) It is the responsibility of each athlete or support staff, in the National Camp or training outside on their own to ensure compliance with "AFI's No Needle Policy".

There is no justification for any athlete (except those with an established clinical condition requiring auto-injection and a valid TUE), a coach or any other non-medically qualified person to administer an injection. Injections are only permitted when there is a clinically justified reason for such an intervention as determined by the AFI Medical Commission. Any case so identified will justify prompt review of the rationale and justification of the treatment by a panel of physicians convened by the AFI Medical Commission.

C) In order to strictly enforce "AFI No Needle Policy", a three-member committee was constituted on 11th May 2018, comprising of the following members:

- 1.** Mr. Bahadur Singh, Chief Coach (Seniors) - Chairman
- 2.** Mr. P. Radhakrishnan Nair, Deputy Chief Coach - Member
- 3.** Mr Sanjay Garnaik, Chief Coach (Juniors) – Member

In order to implement AFI's No Needle Policy, this committee is empowered to conduct search of the rooms of the athletes and support staff (except medically qualified practitioners).
