Subject: Launching the NOC System for athletes

Dear Sir,

AFI has received various requests from the Athletes to change their State of Participation but due to AFI UID system athletes were unable to change their State. In other words, one athlete has already participated from one state and due to some reasons he has shifted to other state and wants to represent the new state where he shifted. To enable such athletes who wants to change the state of participation, AFI has introduced the NOC system which will allow them move to a new state.

In this system, athlete has to login from his AFI UID and password on AFI website under Athlete section where an NOC option will appear for application. In this process, athlete has to submit the NOC from the current state and also the NOC from the new State which he wants to represent now. The new State will give the NOC after checking the documents with his/her address proof. The submission of new address proof by athlete is also mandatory in this online process. The fee for this procedure will be INR 3000/-, after transferring from one State to another, athlete can't change his state further minimum for one year.

The process is attached with this letter.

Regards,

Yours sincerely,

Ravinder Chaudhry
Secretary, AFI
