Circular No. 19-03/2023

Dated: March 30, 2023

Dear Colleagues,

The AFI is working very hard for the all round development of Athletics in the country. It started with the preparation of the Indian athletes, selection of the talent, our education programme through which we are producing the coaches, technical officials, conducting seminars, to bring efficiency and transparency in the working of AFI/State Associations and District Associations.

It has been observed that the states are lacking in preparing their teams which should consist of coaches, technical officials, competition management, details of Federations which includes registration certificates, bank account, PAN number and the date when the election had been conducted. It is the responsibility of each of us to work in the same direction to achieve the outstanding results.

It is also observed that some of the outstanding coaches/technical officials/athletes are not deputed by the State Associations because of reasons known to them. AFI will not tolerate this type of irresponsible behaviour of the states which is becoming impediment in the fast growth of Indian Athletics.

It is also the responsibility of everyone i.e. athletes/coaches/technical officials and other officials that they must behave properly, maintain congenial atmosphere and follow directions issued by AFI and State Associations from time to time.

There are number of complaints from the athletes and others that they are being ignored by the State Associations inspite of their merits. I take this opportunity to request you to involve all those people who are keen to take part in the development process.

Regards,

Dr. Adille Sumariwalla
President, AFI
